

ASX/MEDIA ANNOUNCEMENT
21 April 2008

Norton Gold Fields Limited Change of Business Office

Norton Gold Fields Limited (**Norton**) (**ASX code: NGF**) announces that effective today the Business Office has been relocated to:

Level 1, 79 Hope Street
South Brisbane, Queensland 4101 Australia

Telephone number: 61 7 3846 9200

Fax number: 61 7 3255 0344

Web Address: www.nortongoldfields.com.au

The acquisition of Paddington, the acceleration of Mt Morgan coupled with our growth plans has necessitated a change to South Brisbane. This change is part of our evolution to a producer.

About Norton Gold Fields

Norton Gold Fields is Australia's fourth largest ASX-listed gold producer.

The Company currently operates the Paddington Gold Mine at Kalgoorlie Western Australia and is planning to develop the Mount Morgan Gold Tailings Project in Queensland.

The Paddington Mine has a 3M ounce resource and 3 Mtpa CIP plant capable of producing more than 150,000 oz of gold per year. With the planned addition of underground operations in FY2010 this will lift to 250,000 oz per year.

Norton plans to augment this with 50,000 oz of gold annually from tailings re-treatment Mount Morgan.

Norton also has active gold, copper and coal exploration projects.

Further strategic acquisitions of new resource projects are planned in order to build the Company into a significant mining house.
