

INTERNAL ADVERTSIEMENT

Gold Room Coordinator

PADDINGTON OPERATIONS - KALGOORLIE

Roster: 5 on / 2 off

This position is responsible for the supervision of all gold room operations including staff, the acacia reactor, elution circuits, regeneration of carbon and smelting.

Reporting to the Production Superintendent, key duties of this role include:

- Daily, weekly and monthly reporting and forecasting
- Identifying and managing risks to the Gold Room Elution area
- Secure Gold Room assets from misuse/theft encompassing gold and equipment
- Report gold room logs and operational data to the Metallurgical Department
- Run safety and environmental awareness programs in the gold room, specifically to remove or reduce hazards and limit the impact on the environment
- Trouble-shooting all gold room processes
- Organising Gold room preventative and breakdown maintenance

The ideal applicant will:

- Be able to demonstrate effective leadership
- Have excellent interpersonal and communication skills
- Have previous metallurgical supervisory experience

Please forward all applications to recruitment@padgold.com.au or alternatively phone the HR Department on 08 9080 6800.
