

Resource Geologist

PADDINGTON OPERATIONS - KALGOORLIE

The role of the Resource Geologist is to ensure mineral resource models are constantly evaluated & reviewed to ensure that Norton's operational goals are met.

The key criteria for this role will be:

- Ensuring that geological interpretations are constantly reviewed & updated with current geological understanding
- Ensuring that Resource models are estimated to best practice, in line with current geological understanding
- Ensuring that resource and general project documentation are fully transparent
- Liaising with other key management at site

Benefits working with Norton at their Paddington Operations:

- Residential Kalgoorlie / Boulder or; FIFO from Perth
- Competitive remuneration and incentives
- Optional TPD and Health Insurances

Working in a great team environment, this is an exciting opportunity for the right candidate.
