

Senior Project Geologist

PADDINGTON OPERATIONS - KALGOORLIE

Roster: 5 day / 2 off

The role of the Senior Project Geologist is to manage the project geological team, to ensure the mineral resource is constantly evaluated & reviewed to ensure that Paddington Gold's operational goals are met.

The key criteria for this role are:

- Management & mentoring of project & Junior geologists, Field staff & contractors to ensure that the geological function is working at full capacity
- Maintaining the standards of geological data collection process to JORC 2004 guidelines
- Ensuring that geological interpretations are constantly reviewed & updated with current geological understanding
- Ensuring that Resource models are estimated annually, in line with current geological understanding
- Liaising with other key management at site

Benefits working with Norton at their Paddington Operations:

- Residential Kalgoorlie / Boulder
- Competitive remuneration and incentives
- Optional TPD and Health Insurances

Working in a great team environment, this is an exciting opportunity for the right candidate.
